THEORY OF CHARGE TRANSPORT IN CARBON ELECTRONIC MATERIALS

Springer-Verlag Gmbh Dez 2011, 2011. Taschenbuch. Book Condition: Neu. 23.5x15.5x cm. Neuware - Mechanism of charge transport in organic solids has been an issue of intensive interests and debates for over 50 years, not only because of the applications in printing electronics, but also because of the great challenges in understanding the electronic processes in complex systems. With the fast developments of both electronic structure theory and the computational technology, the dream of predicting the charge mobility is now gradually...
