Excerpt: .whose duties will be to receive and supervise the issue and use of fuel in all buildings at the post, under the supervision of the Quartermaster. 2. There will be assigned to each public building or group of buildings a competent enlisted man for the purpose of handling the heating apparatus installed in that building or group of buildings. In the case of company or detachment barracks, a company fireman will be detailed and will be required to keep a daily record of the amount of coal used and the temperature of the squad rooms in such building. The enlisted man so assigned, in charge of the heating apparatus, will be changed as infrequently as possible, and should be selected because of his trustworthiness and special fitness for the work. Organization commanders and officers responsible for buildings will be required to make at the...
